An Evening of CPD and Networking

Dr Omar Moussati
BDS MClintDent Prosthodontics
MPros RCS Edinburgh
Prosthodontist

Dr. Omar's journey in dentistry began at King's College London Dental Institute, where he graduated in 2016. On completion of foundation training, he had a two-year tenure in the Oral Surgery department at Guy's Hospital.

Eager to specialise, Dr. Omar embarked on Prosthodontics training at Guy's Hospital in 2019, through the MClintDent Programme with KCL, both of which he finished in 2023. He was awarded Membership in Prosthodontics with the Royal College of Surgeons Edinburgh as well as passing his Masters of Clinical Dentistry in Prosthodontics degree with Distinction.

Dr. Omar's practice philosophy is rooted in his passion for delivering the highest standard of care. His professional interests lie in crafting beautiful smiles through smile design, advancing oral function with implant dentistry and transforming lives with full mouth rehabilitations.
